Heil Trailer is pleased to introduce our uniquely designed aerodynamic fairings for Super Jet dry bulk trailers.

“Simple installation and field proven fuel economy improvement.”

<table>
<thead>
<tr>
<th>Features</th>
<th>Advantages</th>
<th>Customer Benefits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Simple Installation</td>
<td>Our bolt together design clamps to existing trailer components and is easily installed with hand tools.</td>
<td>The installation of the fairings can be accomplished in as little as four hours and are easily removed and replaced for trailer maintenance.</td>
</tr>
<tr>
<td>Adaptability</td>
<td>Uniquely designed to be adaptable to all Heil Super Jet frame configurations.</td>
<td>Easily adaptable to any Super Jet trailer with minimal modifications.</td>
</tr>
<tr>
<td>Easy Clean Up</td>
<td>Constructed with rigid high density plastic and aluminum materials.</td>
<td>Resists road salts and corrosion, cleans easily with typical trailer wash agents.</td>
</tr>
<tr>
<td>Light Weight</td>
<td>Adding only 129 pounds, the Heil fairing design does not add significant weight.</td>
<td>Fuel savings significantly exceeds the added weight of the fairings.</td>
</tr>
<tr>
<td>Fuel Savings</td>
<td>Field tested to improve fuel economy, our testing showed up to a .7 MPG increase on level roads.</td>
<td>Fuel savings generates a significant return on investment. Pay back can be realized in less than one year.</td>
</tr>

- **Quality** - Solid State Construction
- **Performance** - Rated at 100,000 Hours of Operation
- **Safety** - Increase Vehicle Conspicuity
- **Value** - Low Power Consumption
- **Customer Support** - Available in both 12V and 24V

**Features and Benefits:**

- Three (3) Truck-Lite LED trailer identification lights included
- Two wire connection for emergency strobe lights & trailer ID lights
- Trailer ID harness includes 20ft leads for aftermarket installation
- Fasteners and grommets are included in the aftermarket kit
- (12) pre drilled holes for (6) fasteners to accommodate variations
- Easy removal of ID light panel for drilling and installation
- Four (4) Truck-Lite Signal Stat brand emergency, high output, amber LED lights mounted high for enhanced visibility
- Strobe device built-in and requires a constant 12v power to strobe lights
- Easy 2-wire connection for strobe lights
- Three (3) customer specified Trailer ID lights included in installation
- Light weight at only 12lb.

QUALITY • PERFORMANCE • SAFETY • VALUE • CUSTOMER SUPPORT
Heil Trailer International is pleased to announce we have redesigned and enhanced our industry leading heavy duty manhole. Through this redesign, we reduced the weight by 17% and integrated the safety devices into the cast aluminum cover. The Heil heavy duty manhole remains the most robust, trouble free, easiest to operate manhole design in the industry.

**Features**

<table>
<thead>
<tr>
<th>Feature</th>
<th>Advantage</th>

</thead>
<tbody>
<tr>
<td>Pressure Rating</td>
<td>Maximum working pressure of 35PSIG and tested at 53 PSIG the heavy duty Heil manhole is certified to meet 49CFR 178.345-5.</td>
<td>With the highest pressure rated manhole in the dry bulk transportation industry, operators are ensured of many years of dependable trouble free service.</td>
</tr>
<tr>
<td>Aluminum cam hold-downs</td>
<td>Long radius light-weight aluminum cam handles.</td>
<td>Easy one hand adjustment and corrosion resistant hardware. Long cam handles provide ample lever for minimum effort. Increased productivity and enhanced product life.</td>
</tr>
<tr>
<td>Dual integrated safety latches</td>
<td>Cover is designed with two integrated safety latches.</td>
<td>Minimizes the risk of a manhole cover inadvertently flying open if cams closures are accidently removed or fail under pressure.</td>
</tr>
<tr>
<td>Nylon wear plates</td>
<td>Nylon wear pads allow the manhole cams to wear longer and offer less resistance.</td>
<td>Improves operation of cam closures, reduces maintenance costs and increases productivity.</td>
</tr>
<tr>
<td>Integrated Rubber Bumper</td>
<td>Incorporated into the manhole hinge</td>
<td>Prevents manhole lid from falling on top of and damaging tank enhancing product life and resale.</td>
</tr>

**Advantages**

Maximizing working pressure of 35PSIG and tested at 53 PSIG the heavy duty Heil manhole is certified to meet 49CFR 178.345-5.

**Customer Benefits**

With the highest pressure rated manhole in the dry bulk transportation industry, operators are ensured of many years of dependable trouble free service.

Easy one hand adjustment and corrosion resistant hardware. Long cam handles provide ample lever for minimum effort. Increased productivity and enhanced product life.

Minimizes the risk of a manhole cover inadvertently flying open if cams closures are accidently removed or fail under pressure.

Improves operation of cam closures, reduces maintenance costs and increases productivity.

Prevents manhole lid from falling on top of and damaging tank enhancing product life and resale.
Sure Seal 3" Aluminum Swing Check Valve

More Air Flow
A high flow valve means less pressure drop and faster unloading rates.

Less Heat Build Up
Due to the spherical design of the Sure Seal 3" Aluminum Swing Check, less turbulence is created in the air stream, reduces back pressure, provides smoother air flow reducing heat build up and wear and tear on the blower.

Molded Silicone Poppet Seals
Designed to withstand high temperature dry bulk environments. Seal rated to 450° F.

Through-Hole Bolts
Removal of Valve Cap bolts are made easier with bolt through-holes. Through-holes allow servicing of worn-out bolts without destroying the casting.

Easier to Rebuild and Service
Since the poppet and top lift out as a single unit all serviceable parts are easily and efficiently accessible. Field maintenance is possible without removing valve from air line.

Optional Seal Tabs
To ensure load integrity.

Embossed Casting Area
Provides an area to personalize each valve.

Light Weight
Light weight aluminum, heavy duty construction.

Reliable
Each valve is manufactured and tested within rigorous ISO 9001 standards and processes.
